GREAT

American and Foreign Office

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St. BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, *as paid back by others,*) will be remitted by him in case of failure to obtain a patent; and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for procuring patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this more MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of this subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar.* Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring Patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in order to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

Aug. 27, 1855.—During the time I have held the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice at the Office, I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Com'r of Patents.

TO CONSUMERS OF

PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Packages, holding, in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, an article which we are labelling "WM. UNDERWOOD & CO'S EXTRA PICKLES," and are filling into full sized jars, which are legibly stamped in the glass, with their exact contents in ounces—thus enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that used in most brands of English Pickles found in this country.

Filibusterism made Easy.

On Wednesday last, the steamship Tennessee from New York for San Juan, took on two or three hundred recruits for the assistance of Walker in his filibustering operations in Nicaragua—together with about $200,000 worth of provisions which were contributed, it is said, mainly by some of the large hotel-keepers of the city. This shipment of men and supplies was made ostensibly as of emigrants with peaceful intentions, going out for colonization under a written contract between the Nicaraguan government (Walker's, and Gen. Wm. L. Cannon—the latter party agreeing to furnish one thousand of these "colonists," within one year from the date of the contract. According to the terms, they are to be transported from New York "to suitable points for settlement in Nicaragua, at the expense of the aforesaid 'Nicaraguan government'"—and each settler to receive 80 acres of land in fee provided he occupies the same for one year.

These are the terms of the contract drawn up in authority for the purpose of evading the United States neutrality laws against military or other hostile expeditions to foreign countries. The Tennessee took out no military stores or munitions of war. These, it is reported, will be sent by some other conveyance, to evade the authorities.

The cover thus given to this filibustering movement—notoriously known to be such in New York—seems to have been allowed by the United States authorities—as no attempt was made to stop the expedition. The "colonists" were openly enlisted at a recruiting office on Broadway—openly marched to the dock at the foot of Eighth street on the East River—and openly received on board, and cheered by Capt. Rynders and the roughs. The Tennessee then quietly sailed with them, notwithstanding a posse of Deputy Marshals, a revenue cutter and a United States steamer have been kept in readiness by the government, ostensibly to prevent the departure of filibustering expeditions. A New York paper satirically remarks that "nothing occurred to render necessary the interference of the authorities."

Walker's recruiting agent, Carrean, had on the day of the Tennessee's departure boldly demanded of Mr. District Attorney McKeon what one there was any law to prevent the emigration of American citizens under a contract for colonization,—and McKeon replied that there was not, inasmuch it appeared by "proper evidence that they are for that matter expedition, or parties calls ed, or retained" with intent to enlist elsewhere in violation of the neutrality laws of the United States." As the government did not appear to have obtained this "proper evidence," the expedition left without interference.

Thus the colonization dodge has triumphantly evaded the laws—and Walker will reap whatever aid and comfort he may from *filibustering made easy.*

The Emancipists.

The Fayetteville Carmanclo very properly says:

The Republican members of the Legislature as they shall come together will bring with them the wishes of their several constituencies, in regard to this question, and we have no doubt will settle it in conformity with the general feeling of the people of the State.

There will be several candidates for this justly desirable position—all of them men who would do honor to the State, and discharge the duties of the place ably and satisfactorily. Let the members of the Legislature take full, fair and early action upon the subject—we shall consider the merits and claims of each candidate who may be presented—and then decide promptly as impartial justice and the wishes and interests of the people may appear to require. It should be acted upon as a State question, uninfluenced by mere local considerations or personal predilections.

Loss of the Electoral vote of Wisconsin.

In consequence of a furious snow storm on the first Wednesday of December, the day fixed by law for the assemblage of the Electors of President all communication with Madison, the capital of Wisconsin, was cut off—and consequently the vote for President was not cast upon that day. The Madison Argus is of opinion that the electors cannot now legally discharge their functions, and that the vote of the State is lost.

Washington letter writers state that Mr. Buchanan is urging the election of Kinney of the Philadelphia Pennsylvanian, to the United States Senate, to succeed Mr. Fredhead. His intervention has caused quite a commotion, and it is thought by many that it may result to the success of General Cameron, the Republican and American candidate.

Walker's Condition.—An intelligent German writes to the New Orleans *Deutsche Zeitung*, the following particulars which we find translated in the Evening Post:—"For the benefit of enthusiastic young gentlemen out of occupation, and in search of glory."

Virgin Bay, Dec. 1, 1856.

Within the last thirty days our army has lost 400, men by death in the hospital, 100 have been shot, 50 have deserted, and over 300 are now on the sick list. We have but little med cine, but poor physicians are plenty. We can muster, all told, but 200 men fit for service. The enemy number at least 4000 men, among whom are many well trained Europeans—Englishmen, Germans and Frenchmen. Now this you may judge what are our hopes and anticipations.

The Schoolfellow.—Mr. E. F. Duren has handsomely bound volumes of this excellent period cal for youth. No better holiday or acceptable gift book can be found. Its contents are both instructive and entertaining.

A Remarkable Feat by Santa Claus.—On Christmas Day a new and beautiful marble pulpit was found in the First Baptist Church, (Rev. Mr. Caldwell's) standing in the place of the former desk.

Two Germans, with a hurdy-gurdy and tamborine, have, it is said, netted two thousand pounds sterling, in the short space of ten months, in Australia.

The Bible as a Text-Book in China.—In a new work upon "The Chinese and their Rebellions," by Mr. Meadows, the author gives the following as a law adopted by the now dynasty which has established itself with apparent permanency in some of the central provinces:

"The Eastern Prince has stated in writing, that, under the rule of the Latinos, the Bibles will be substituted for the sacred books of Confucianism, as the text-book in the public examinations."

In spite of my caution, and, in spite of my having dwelt with so much emphasis on the influence of these examinations as the fruitful source to thousands of seats in the empire, from district Magistracies up to Privy cushions, * * * I fully despair of imparting an adequate idea of the importance of the resolve of the Taipings for of the immense significance, on it, gives to the piece of yellow shading in the middle of the accompanying map of China. Upon the increase or the diminution of that piece of shading during the ensuing years, depends whether in a prosperous population of three hundred and sixty millions of heathens, all the nations * * * from boyhood to twenty-five or thirty years of age who can devote their time to study will be assiduous y engaged in getting the Bible by heart from beginning to end. *Should the take place it will strike a revolution as unparalled in the world for rapidity, completeness and extent, as is the Czar's people tax of for its antiquity unity and numbers.*"

The Atlantic Telegraph Company.—The following are the Directors chosen for the ensuing year of the Atlantic:

United States—Peter Cooper, Esq., President, New York; Cyrus W. Field, Esq., New York; W G Hunt, Esq., New York; H O Alden, Esq., New York; Watts Sherman, Esq., New York; Professor S H B Morse, Poughkeepsie. Lieut. M F Maury, L L D, Washington, D C; A H Rich, of Boston; Francis P Corbyn, Esq., of U S, residing in Paris.

Canada—Hon. John Ross, Hon. John Young and Hon. Geo E Cartier.

The manufacture of the cable has been commenced in London.

The Atlantic Telegraph under English Control.—The New York Times, in speaking of the Atlantic Telegraph, calls attention to an important element in the organization of the Great enterprise which is worth nothing, as it tends to destroy much of its prospective value in the United States. The objectionable feature is set forth:—

The Company, although it was originated by our own citizens, will be exclusively under English control. Two hundred and sixty-two shares, representing $262,000 of the capital, are owned in England, while only eighty-eight shares, representing $88,000, are owned in the United States. The landings of the cable will be in English territory. The eastern end will land at Valentia, a harbor in the south-western extremity of Ireland, about forty miles directly west of Cork, and the western end will land at St. Johns, in Newfoundland. This fact may be of little consequence in the piping times of peace, but in time of war it becomes a matter of great moment. In the hands of Great Britain the electric cable would then be a powerful auxiliary, of which it would be impossible to deprive us, to cope. It is, doubtless, on account of this advantage that the English government has been induced to grant the Company the annuity of $14,000, and to place at its disposal such naval services as may be needed in sounding and laying down the cable. And it is for this very reason that our own government should hesitate about granting to the Company a similar charity, which will be asked for by and by.

The Atlantic Telegraph, when completed, will be the wonder of the age. But it can never be exclusively available to the United States unless the Western end of the cable shall be landed on our own shores.

Found dead in his woodshed, on the 18th inst., Mr. John Doyer, of Avon, Me., aged about 74 years, supposed to have frozen to death in the night. It appears that he attempted to get some wood in the evening, as it was found near him, part of a cord, and a candlestick. He was found lying upon his face, with quite a wound upon the forehead, with the appearance of some struggling in the attempt to rise. There were none in his family capable of giving the alarm. He was found something in the forenoon, by a neighbor.

Hartford Transcript.

Mr. Doyen was the father of the noted Helen Jewett, who was murdered in New York many years ago.

The case of Massachusetts against Rhode Island has been decided in the Supreme Court of the United States. The case was brought to recover a portion of territory that has been in the possession of Rhode Island for more than a century, and which had been confirmed to Rhode Island by the King in council. It appears by the telegraphic report that the decision is in favor of this State, although the despatch is not very intelligible. It is to be hoped that our bigger neighbor, which has been trying to get a portion of our territory over a new she drove Roger Williams out of, we'll now be quiet.—*Providence Journal.*

Some miscreant cut the cords of the tent of an English circus company at Bruges on Sunday, letting the rampallid, which was heavily covered with snow, down upon 2500 spectators who would have all been smothered had not the soldiers present slashed away at the canvas with their swords, and others with their knives, so that the poor people were released, with some injuries but none fatal.

The Hayseed Horses.—A gentleman writing to the American Agriculturist, states that he thoroughly cured a fine youngmare afflicted with the heaves, by feeding her on corn stalks, and that the disease never returned. The writer quotes Judge Buel's opinion as to corn stalks being a remedy, that distinguished agriculturist having had a horse afflicted with that disorder, which disappeared after feeding so fed.

Looking over the returns of the Iowa election, we find that Fremont beat Buchanan in Buchanan county, while Buchanan beat Fremont in Fremont county. What's in a name?

The first branch of the Baltimore City Council has adopted an ordinance establishing a better police system, and increasing the police force to four hundred men, who are to be armed with revolvers.

The Convenience.—The London Morning Advertiser (whig organ,) speaking of the approaching re-assembling of the Paris conference, says:

"We have now the gratification of being in a position to say, that the fears which, in the first instance, were entertained of a disastrous result to the opinions and interests of England, and a consequent gain, in both respects, to Russia, have within the last few days considerably diminished. We believe it will be found, when the Congress breaks up, that Lord Palmerston has taken every precaution against the possibility of success crowning the efforts of Russian craft and Russian unscrupulosity, in the course of its sittings. At one time it would have been positive insanity for the Premier to have consented to the assembling of a new Congress, but we believe the danger may be regarded as in a great measure past. One of the Powers, which is now with us, and committed, so far as a way from which she cannot recede, was against us, and with Russia. We could say more, but we think, The Government of France—in other words, Count Walewski, for of late the words have been synonymous—will find itself circumscribed in the actual game which that government has sought to play.—If our hopes be realized, Lord Palmerston will attend Windsor than ever—not only in his own country but throughout the civilized world—when the long pending conferences are over."

The Times Vienna correspondent says:

"It is very generally stated in the German and French papers that several matters are to be discussed at the Conference, but the positive assurance has been given, me that the only thing connected with the treaty of the 30th of March, now to be settled, is the Bessarabian question. At noon de Russia has promised to cede New Ilo grad, and to withdraw her troops from that part of Bessarabia which now belongs to Moldavia, the Austrians will quit the Danubian Principalities, and the English the Black Sea. The commission for the re-organization of Moldavia and Wallachia will not go to Bucharest before the evacuation of these provinces is complete. The rege of the Russians at which has recently occurred must needs be great for up to Sunday last they still drank to Lord Stadfield was with them in the Belgrade nation. The fact of sardinia having come to an understanding with England was to have remained a profound secret, but it was betrayed in Paris."

The New Tariff Bill.—The Tariff bill reported Tuesday in the House, by Mr. Letcher, is substantially the same as the proposition made by Mr. Houston in January, 1855. He proposes a uniform reduction of 20 per cent. on the duties levied by the Tariff of 1846; also, to transfer manufactures of silks to the schedule now paying 30 per cent., manufactures of flax and blacking of all kinds, to the schedule paying 25 per cent; manufactured wool to the schedule of 10 per cent.; raw silks, manufactured vegetable substance, and dyestuffs 5 per cent.; oilmeals and their class, free. It also provides additional duty of 10 per cent. on all foreign importations in foreign bottoms, not exempt from such discriminations by treaty or act of Congress. It makes the location of Collectors exclusive, so as to prohibit any of bonds to any point within thirty days to the Secretary of the Treasury, whose decision shall be final and conclusive, unless a suit to recover duties be brought within six days. The act to take effect on the first of July next.

The Foreign Wits.—The following "scene in Court" was related by Samuel Warren, author of "Diary of a Physician," in conversation with a friend. He remarked that it occurred in his own legal practice:

A few years since, a man of high respectability was tried in England on a charge of forging a will, in which it was discovered he had an indirect interest to a large amount. Mr. Warren was the associate prosecuting attorney and the case was tried before Lord Denman.

The prisoner being arraigned and the formalities gone through with, the prosecutor placed his thumb over the seal, held up the will and demanded of the prisoner if he had seen the testator sign that instrument, to which he promptly answered, he had.

"And did you see him seal it with red wax?"

"I did."

"Was it sealed with *red* or *black* wax?"

"It was red wax."

"Did you see him seal it with red wax?"

"I did."

"Where was the testator when he sealed the will?"

"In his bed."

"Pray, how long a piece of wax did he use?"

"About three or four inches long."

"Who gave the testator this piece of wax?"

"I did."

"Where did you get it?"

"From the drawer in his desk."

"How did he light that piece of wax?"

"With a candle."

"Where did that piece of candle come from?"

"I got it out of a cupboard in his room."

"How long was that piece of candle?"

"Perhaps four or five inches long."

"Who lit that piece of candle?"

"I did."

"With what?"

"With a match."

"Where did you get that match?"

"On the mantle shelf in the room."

Here Warren paused, and fixing his large deep blue eyes upon the prisoner, he for a time will do above his head, thus though still resting upon the seal, and said in a solemn, measured tone:

"Now, sir, upon your solemn oath, you saw the testator sign that will—he signed it in his bed—at his request you signed it as a subscribing witness—you saw him seal it—it was with red wax—he sealed it—a piece of wax two, three or four inches long—he lit that wax with a piece of candle which you procured for him from a cupboard—you lit that candle by a match which you found on the mantle shelf?"

"I did."

"Once more, sir—upon your solemn oath, you did?"

"I did."

"My Lord—I'm a warm."

According to the New York Tribune, Dr. Samuel Tarsher Lyons, who has run such a rig among the women, from advertisements for a wife a housekeeper or a governess, robbing a hundred or two of their virtue and their money—was convicted, eighteen years ago, of stealing a watch from a woman in a house of ill fame in London, and sentenced to death, but his life was spared through the interposition of several Americans, and he was transported to Australia for life. He made his recent escape from the United States because a Yankee whose sister he had ruined was hunting for him in New York with the avowed purpose of blowing his brains out on sight. The Tribune says there is a mistake in this person's history—which we suspect that considering young ladies of a romantic disposition are easily fascinated by a flowing black mustache (especially if attached to a perfect stranger,) should draw for themselves.

Lexington, in Kansas, is thriving greatly, and as it wants workmen and capital. Houses that cost accordingly two to four hundred dollars to build, are leasing for from $300 to $400, and selling from $600 to $1,200.

Sad Casuality.—A sad accident occured in this city on Friday morning of last week, by which son of Mr. John B. Harmon, was fatally wounded, and died in a few hours after the accident. Mr. Sawyer's horse took fright and ran with a wagon against the fence, the pole of the wagon struck him with great force, completely impaling him, and thus inflicting a dreadful wound upon the lower part of his body. The boy with his sister was on his way to school.—*Hartford Journal.*

There is a project of foot to start a daily newspaper in the city of London, to be owned and controlled by Americans, and devoted principally to American interests.

Our readers will no doubt be happy to learn from our advertising columns, that we have a "New England Cough Syrup among us"; and the Boston Clive Branch, thus discourseth upon its merits:

Mitchell's Cough Syrup.—We wish to say a word in favor of this excellent article, which our readers will find advertised in another column. And we do so, neither by request, nor for pay, but because we have tried the syrup, and found it to be one of the most valuable remedies for a stubborn cough, that we have ever met with. And from our own experience, we can warmly recommend it to those who are afflicted with bronchial complaints. We are not in favor of recommending every nostrum, but of those can be said of most medicines. Invalids will do well to try it themselves.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Important to Ship Owners.

WASHINGTON, Dec. 20.

The Supreme Court to-day, pronounced, through Justice Curtis, a decision affecting the responsibility of masters of vessels for repairs and supplies. The case before that tribunal was one growing out of the business transactions of the bark Laura, while employed in trading on the Pacific coast. Chief Justice Taney and Justice Wayne dissented from the majority of their brethren. The Court held that the Captain, under contract to sail the vessel, was merely the agent, and not owner for the time being, of the vessel, the owners of which were responsible for said repairs. Judge Taney occupied an hour in the delivery of his views regarding the subject, as highly important and containing points for the first time brought before that tribunal.

Naval Resignations.

A private letter from the East India Squadron announces the resignation of James Higgins and J. C. Hillmen, Lieutenants on board the U. S. sloop-of-war Levant.

Another Murder in Charlestown Prison.

BOSTON, Dec. 20.

Solon H. Tenney, warden of the State prison in Charlestown, was stabbed by a convict named Decatur, this afternoon. He has since died. He was lately married, and has just returned from a wedding tour. Two weeks ago to-day the deputy warden was murdered in the same way.

Trial of Negroes for Murder.

LOUISVILLE, Dec. 20.

The examination of the negroes charged with the murder of the Joyce family, took place on Saturday. The Court House was surrounded by an excited crowd, one of whom, the brother of the murdered man, proposed that the negro should be burnt on the spot. The crowd responded in favor of the proposition, but quiet was restored by the Court, and the negroes were remanded. The presumptive evidence against the prisoners is strong, but there is nothing direct, excepting the confession of one of them.

From the West.

ST. LOUIS 20th.

The Santa Fe mail arrived at Independence on the 20th inst.

Mining operations in New Mexico were progressing favorably.

Heavy snows were experienced on the 11th inst. Doniphan's Fort, was attacked by the Kansas Indians, and but for the interference of the Delawares, would have been destroyed. The Kansas gave the mail train much trouble.

The Steamer Tennessee.

BALTIMORE, Dec. 20.

The steamer Tennessee, from New York for Nicaragua, put into Norfolk on Saturday with a broken shaft.

Our city is swarming with filibusters who have come on here from New York. Orders have been sent to New York for another steamer.

Riot Among the Oystermen.

A terrible riot occurred on Christmas day among the Philadelphia oystermen, Sir Francisco-liver. One man was killed and buried at Penn Point, and three others taken to a hospital badly wounded. Three boats were lashed together and the fight continued between them all night.

LATER FROM CALIFORNIA,

ARRIVAL OF THE

STEAMER ILLINOIS

AT NEW YORK.

NEW YORK, Dec. 23.

The steamer Illinois, from Aspinwall, arrived at this port this morning, with California dates to Dec. 5. She also brings upwards of 600 passengers, and nearly $1,700,000 in treasure.

The Illinois connected with the Golden Gate, and left Aspinwall on the 10th inst.

The U. S. frigate Wabash left 13th, for New York via Havana. The sloop-of-war Dale remained in port.

The California news is of but little interest. The reports from the mining districts are good. The latter was still a want of rain in some districts.

The money market was unchanged.

Business at San Francisco unusually dull.—Jobbing sales of Gallego Flour at $15,00; crushed Sugar 16¼; Hams 19¼; Lard 25; Butter 39; Adamantine Candles 28; New Orleans Sugar 11; clear Pork 42.

Richard P Hammond, ex-Collector of San Francisco, has been acquitted of the charge of defrauding the U. S. Government while in office.

The news from Oregon and Washington Territories is unimportant.

Advices from the Sandwich Islands are to Nov. 9th. An unusually large number of whaling vessels had arrived, most of which had been successful. The news from the whaling fleet is quite favorable. But few disasters are reported.

The disbursements in the case of Adams & Co. have been allowed by the Supreme Court, burthening the State in debt to Mr. Cober, the first receiver. The paper of A. & Co. is selling for four and five cents.

George M. Pratt, formerly of Mass., has been murdered at his ranche, by a man named Clark Stevens.

Dates from Panama are to Dec. 10th. The Panama Star contains an account of the war in Nicaragua, confirmatory of the advices received here by the Tennessee, but gives nothing new.

A British squadron arrived at Panama on the 8th Dec. Its object is said to be to examine into the practicability of establishing a naval depot in the Bay of Panama, probably at Taboga.

A letter from Carthagena of Nov. 23, states that the British difficulty was still pending, and the blockade of the New Granadian ports would commence immediately.

Dates from Valparaiso are to Nov. 15, and Guayaquil to Dec. 1.

Business at Valparaiso dull, and markets well supplied.

Copper is held at $220.

The revolution in Peru is on the increase. Two government vessels had gone over to the revolutionists, and President Castilla had denounced them as pirates and sent three armed ships in pursuit, and had also authorized the vessels of any nation to destroy them.

One of those insurgent vessels, the steamer Apurimac, had overhauled the British mail steamer Santiago, on her way from Callao to Valparaiso, and taken from her all the Peruvian mails.

It was believed that Castilla would be able to suppress the revolution, as the Convention would vote him extraordinary powers.

Advices from Melbourne, at Panama, are to Oct. 11. The ship Nestorian, from N. York, had arrived at Melbourne.

There is nothing interesting from Aspinwall.

FROM WASHINGTON. *Washington, Dec. 26.* I get the information from a reliable quarter, that a political move is contemplated in regard to the public domain, which will create an excitement in the political world, greater than the Kansas bill of Mr. Douglas. This move consists in a bill to be attached to the Kansas popular sovereignty principle, giving each State on its admission into the Union the right of eminent domain as an essential and necessary part of sovereignty. That bill has received already several influential co-operators, and there is no longer any doubt that it will lead to (an) animated political contest. There is, I understand to-day, to be an enlargement given to the measure in the shape of a new legislative compromise on the subject of slavery.—*Cor. N. Y. Herald.*

ORDINATION.—Rev. Findlay Wallace, of this city was ordained as a Minister of the Gospel, (Congregationalist) on Tuesday last, at the Congregational Church. The exercises were highly interesting.—*Rockland Gazette.*

Wistar's Balsam of Wild Cherry

Has established itself as a reputation that cannot be assailed. Dr. W. A. Shaw of Washington, N. C., writes under date of May 1, as follows: "I have heard of many cases of decided beneficial effects from its use, especially in Asthma and Chronic Coughs of spasmodic character. I have used the Wild Cherry a great deal in practice, and with marked good results."

Every one knows the reputation of the Turpentine and Tar constituents in preparations for the cure of Coughs, Colds, &c. The combination of these principles in WISTAR'S BALSAM OF WILD CHERRY is ingenious as judicious.

Medical men are justly distrustful of Patent Medicines in general, but candor will discriminate between courageous nostrums and humbugs; and those medicines which have proved salutary, and in many well-attested cases, curative.

None genuine unless signed I. BUTTS on the wrapper.

The Franklin Book Company

connected with the most extensive Book Publishing Houses in the United States, and wishing to dispose of a large stock of Books now on hand, have adopted the following liberal plan:—

Books that usually sell at from $1,00 to $2,00 and even $3,00, we shall sell for $1,00 each; and every purchaser of Books will have the privilege of buying any of the following articles, to be by our agent selected, at the following prices:

Singer's Sewing Machines.

THESE celebrated machines are the practical and profitable ones in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in construction and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one in the case of constant vexation and loss. The entire *reliability* of our machines is one great reason for the unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a fine and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. If the machines which have proved best for all other purposes must be best for family use, and they are SINGER'S. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their looks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even a scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Heed and judge.

MILLBURN, Worcester Co., Mass., Nov. 1855.

PROF. O. J. WOOD—Dear Sir—I take pleasure in bearing testimony to the merits of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald, and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have tried many celebrated preparations for restoration. Seeing your advertisement, it was induced to give your article a trial, and, to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy, and beautiful appearance, and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.

Yours truly,
HENRY GOODRICH.

CHARLESTON, Mass., Aug. 9, 1855.

Dear Sir:—Nothing but a duty and sympathy that I feel to condemnate to others that are afflicted as I have been would induce me to give the public a testimonial of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray and in spots entirely bald. I have now used three bottles, a short five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully yours, &c.
MRS. R. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston.

BOSTON, Oct. 10, 1855.

Dear Sir:—At your request, and being so highly pleased with the effects of the Restorative, I am free to say that my hair had become quite thin, and nearly white. I have for the last five years been in the habit of using dye, but being of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown.

Yours respectfully,
MRS. INGALLS.

[From the Jersey City Telegraph.]

WHAT IS IT?—THE PROF. WOOD'S HAIR RESTORATIVE!—a question asked daily by hundreds. We answer without hesitation, for fear of contradiction, that it is the only article known which will do all it promises for it. Any man has *the will to excess the grey*—it will *stop its falling out*—it will *restore its natural color!* It is not a hair dye, but a speedy and effectual preservative.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their looks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even a scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Heed and judge.

MILLBURN, Worcester Co., Mass., Nov. 1855.

PROF. O. J. WOOD—Dear Sir—I take pleasure in bearing testimony to the merits of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald, and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have tried many celebrated preparations for restoration. Seeing your advertisement, it was induced to give your article a trial, and, to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy, and beautiful appearance, and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.

Yours truly,
HENRY GOODRICH.

CHARLESTON, Mass., Aug. 9, 1855.

Dear Sir:—Nothing but a duty and sympathy that I feel to condemnate to others that are afflicted as I have been would induce me to give the public a testimonial of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray and in spots entirely bald. I have now used three bottles, a short five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully yours, &c.
MRS. R. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston.

BOSTON, Oct. 10, 1855.

Dear Sir:—At your request, and being so highly pleased with the effects of the Restorative, I am free to say that my hair had become quite thin, and nearly white. I have for the last five years been in the habit of using dye, but being of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown.

Yours respectfully,
MRS. INGALLS.

[From the Jersey City Telegraph.]

WHAT IS IT?—THE PROF. WOOD'S HAIR RESTORATIVE!—a question asked daily by hundreds. We answer without hesitation, for fear of contradiction, that it is the only article known which will do all it promises for it. Any man has *the will to excess the grey*—it will *stop its falling out*—it will *restore its natural color!* It is not a hair dye, but a speedy and effectual preservative.
